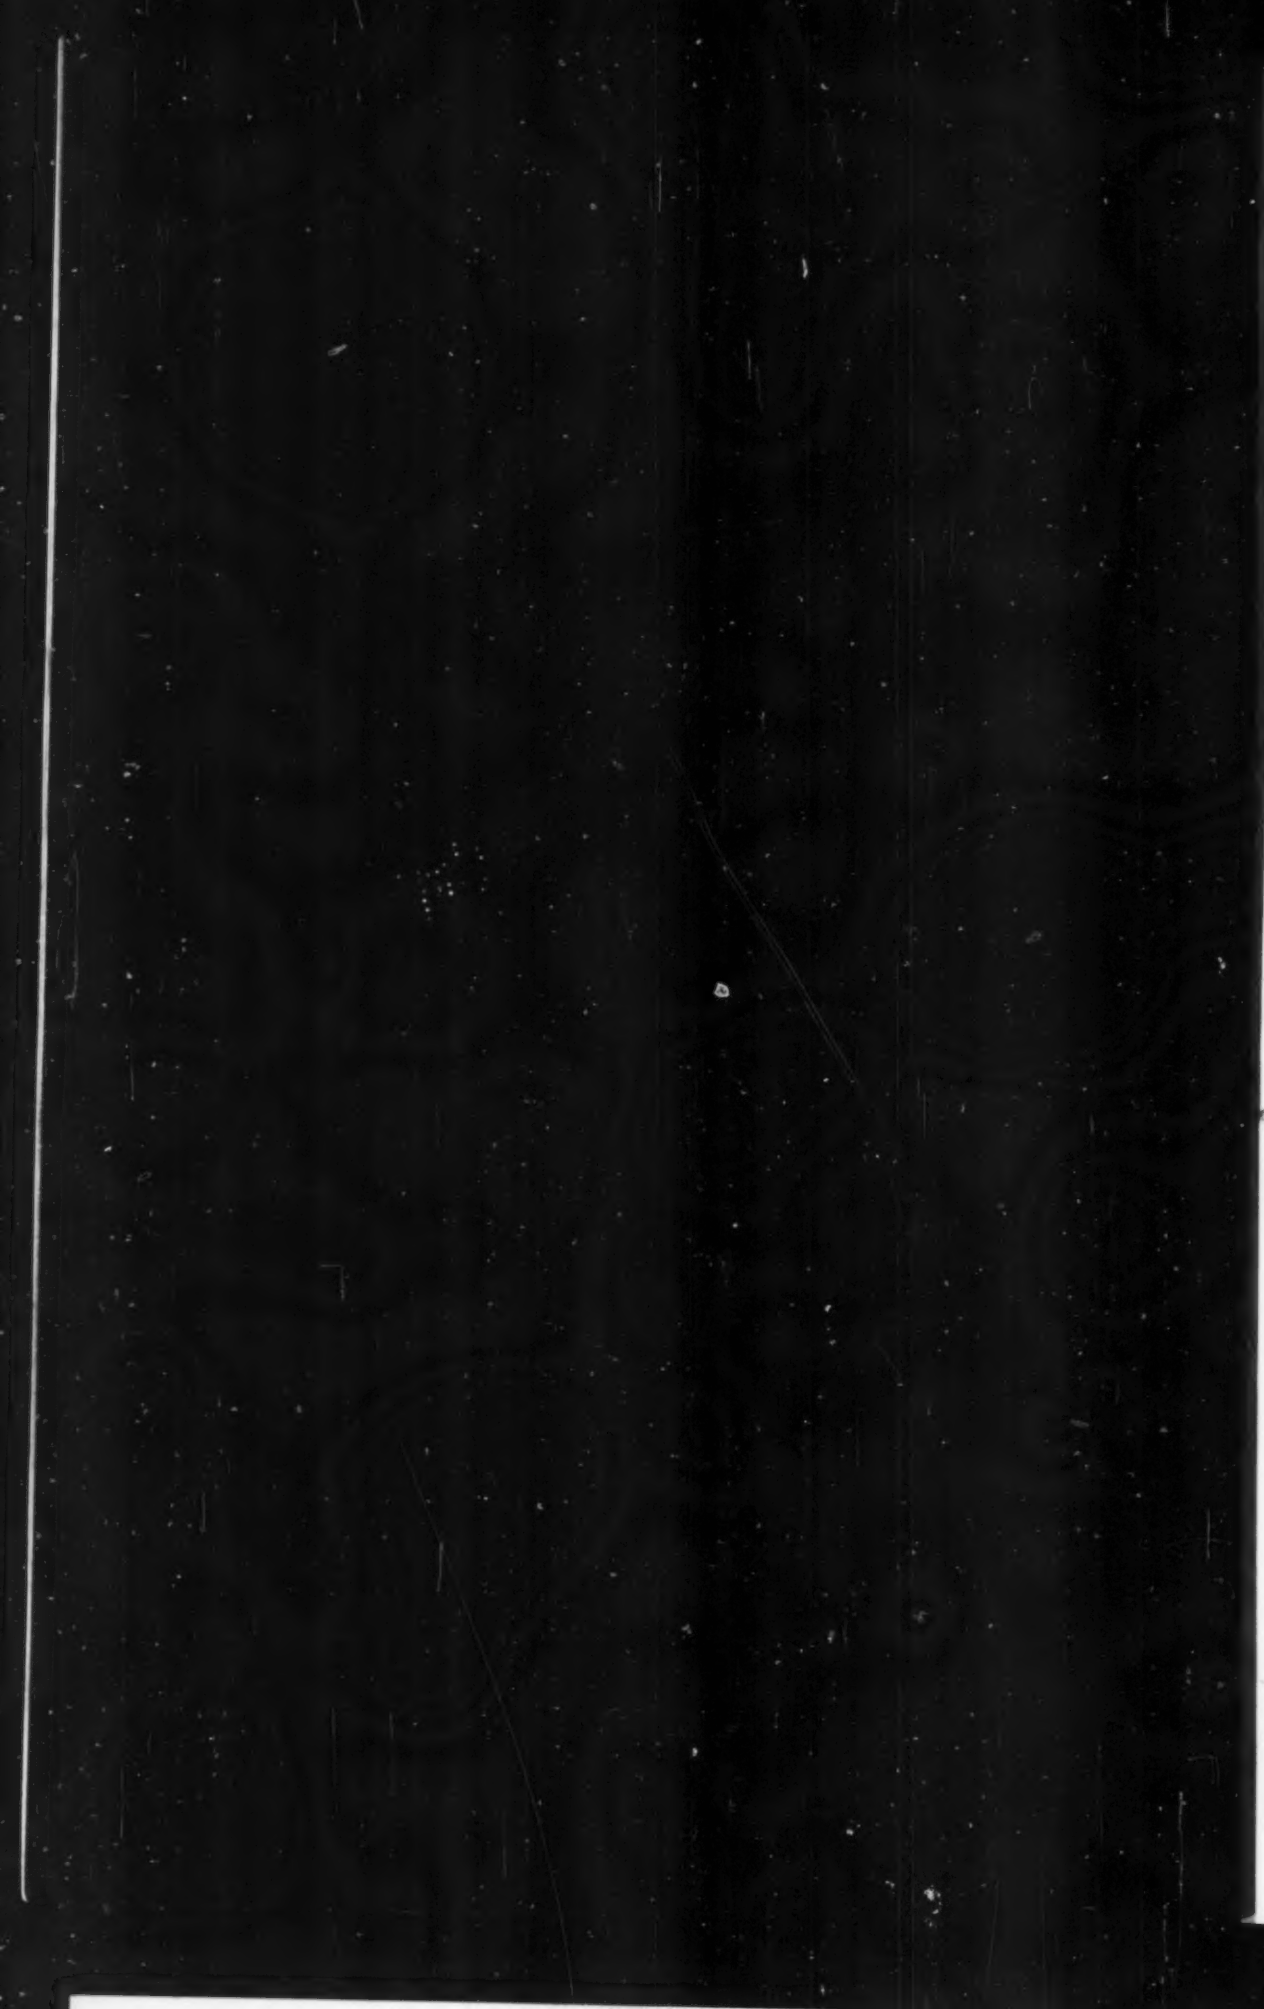
CONTENTS

JULY, 1931

Comments on the Application of Physics to Metallurgy– H. W. Gillett and H. W. Russell 1
Human Value of Physics – – – – – – – – – – – – – – – – – Arthur H. Compton 13
Capillary Rise in Sands of Uniform Spherical Grains – W. O. Smith, Paul D. Foote and P. F. Busang 18
Flow of Gas through Porous Materials – – – – – – – M. Muskat and H. G. Botset 27
Experimental Method of Determining Certain Characteristics of the Flow at the Surface of an Airfoil – – – – – – – – – – – – – – – – – – –


New Method of Dielectric Constant Measurement at Radio Frequencies – H. L. ANDREWS 366
Charts for Transmission Line Problems – H. E. HARTIG 380
"Magnetic Sharpener" – L. W. MCKEEHAN 388
Thixotropy of Litharge and Glycerine – E. KARRER AND P. WASSERMAN 393
Thermo-Stromuhr Method of Measuring Blood Flow – J. F. HERRICK AND EDWARD J. BALDES 407
Editor's Column – 418
Errata – 422
Index to Volume I – 423
